

WESTMORELAND COUNTY OFFICE BUILDING ADDITION

Greensburg, PA

Strada and Rycon Construction were selected by the Westmoreland Development Council as the design/build team for a four-story 64,000 s.f. addition over the existing Courthouse Square Extension. The design will connect the existing Annex via a walkway over Pennsylvania Avenue from the new second floor to the first floor of the existing Westmoreland County Courthouse. The new space will allow Westmoreland County economic development groups and agencies to reside in one location. Construction is expected to be completed by April 2007.

NORTH PENNSYLVANIA AVENUE ELEVATION - NOT TO SCALE
